1. Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name: TANALITH E 8000
Product-specific registration-no.: 9522

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Substance/Mixture: Wood preservatives

1.3 Details of the supplier of the safety data sheet

Company: Arch Timber Protection
Wheldon Road
Castleford
United Kingdom
WF10 2JT

Telephone: +44 (0)1977 714000
Telefax: +44 (0)1977 714001
Responsible/issuing person: advice@archchemicals.com
E-mail address:

1.4 Emergency telephone number

Emergency telephone number: +44 (0)1235 239 670

2. Hazards identification

2.1 Classification of the substance or mixture

Classification (67/548/EEC, 1999/45/EC)

Corrosive: R34: Causes burns.
Harmful: R20/21/22: Harmful by inhalation, in contact with skin and if swallowed.
Dangerous for the environment: R50/53: Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

2.2 Label elements

Labelling according to EC Directives (1999/45/EC)
Hazard pictograms:

- Corrosive
- Dangerous for the environment

R-phrase(s):
- R20/21/22: Harmful by inhalation, in contact with skin and if swallowed.
- R34: Causes burns.
- R50/53: Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

S-phrase(s):
- S26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- S28: After contact with skin, wash immediately with plenty of water.
- S35: This material and its container must be disposed of in a safe way.
- S36/37/39: Wear suitable protective clothing, gloves and eye/face protection.
- S45: In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).
- S38: In case of insufficient ventilation, wear suitable respiratory equipment.
- S57: Use appropriate container to avoid environmental contamination.

Hazardous components which must be listed on the label:
- 2-Aminoethanol: 141-43-5
- Copper(II) carbonate--copper(II) hydroxide (1:1): 12069-69-1

Sensitising components:
- Propiconazole: May produce an allergic reaction.

2.3 Other hazards
not applicable

3. Composition/information on ingredients

3.2 Mixtures

### 4. First aid measures

#### 4.1 Description of first aid measures

**General advice**: Immediate medical attention is required.
Move out of dangerous area.

If inhaled
Move to fresh air.
Keep patient warm and at rest.
Give oxygen or artificial respiration if needed.
Immediate medical attention is required.

In case of skin contact
Take off contaminated clothing and shoes immediately.
Wash off immediately with plenty of water for at least 15 minutes.
Immediate medical attention is required.
Wash contaminated clothing before re-use.

In case of eye contact
Rinse immediately with plenty of water for at least 15 minutes.
Keep eye wide open while rinsing.
Immediate medical attention is required.
Small amounts splashed into eyes can cause irreversible tissue damage and blindness.

If swallowed
Do NOT induce vomiting.
Never give anything by mouth to an unconscious person.
Immediate medical attention is required.

4.2 Most important symptoms and effects, both acute and delayed
Symptoms
See chapter 11. Toxicological information

4.3 Indication of any immediate medical attention and special treatment needed
Treatment
Treat symptomatically.

5. Firefighting measures

5.1 Extinguishing media
Suitable extinguishing media
Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Carbon dioxide (CO2)
Water spray

Unsuitable extinguishing media
Do NOT use water jet.

5.2 Special hazards arising from the substance or mixture
Specific hazards during firefighting
The product is not flammable.
Do not allow run-off from fire fighting to enter drains or water courses.
Burning produces noxious and toxic fumes.

5.3 Advice for firefighters
Special protective equipment for firefighters
In the event of fire, wear self-contained breathing apparatus.

Further information
Standard procedure for chemical fires.
6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions:
- Ensure adequate ventilation.
- Avoid contact with the skin and the eyes.
- Refer to protective measures listed in sections 7 and 8.
- Wear protective gloves/protective clothing/eye protection/face protection.
- Take off contaminated clothing and shoes immediately.
- Wash contaminated clothing before re-use.

6.2 Environmental precautions

Environmental precautions:
- The product should not be allowed to enter drains, water courses or the soil.
- If the product contaminates rivers and lakes or drains inform respective authorities.
- Prevent further leakage or spillage if safe to do so.

6.3 Methods and materials for containment and cleaning up

Methods for cleaning up:
- Soak up with inert absorbent material.
- Sand
- Retain and dispose of contaminated wash water.
- Pick up and transfer to properly labelled containers.
- Keep in suitable, closed containers for disposal.

6.4 Reference to other sections

Additional advice:
- See chapter 8. Exposure controls/personal protection
- 13. Disposal considerations

7. Handling and storage

7.1 Precautions for safe handling

Advice on safe handling:
- Avoid formation of aerosol.
- Avoid contact with skin and eyes.
- For personal protection see section 8.
- Smoking, eating and drinking should be prohibited in the application area.
- Provide sufficient air exchange and/or exhaust in work rooms.
- Use only in an area equipped with a safety shower.

Advice on protection against fire and explosion:
- Normal measures for preventive fire protection.

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers:
- Store in original container.
- Containers which are opened must be carefully resealed and kept upright to prevent leakage.
- Use appropriate container to avoid environmental
Other data: No decomposition if stored and applied as directed.

7.3 Specific end uses
Specific use(s): Wood preservatives

8. Exposure controls/personal protection

8.2 Exposure controls

Engineering measures
Provide adequate ventilation.

Personal protective equipment
Respiratory protection: In the case of vapour formation use a respirator with an approved filter.
Respirator with filter for organic vapour (EN 141)
Hand protection: The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it. The choice of an appropriate glove does not only depend on its material but also on other quality features and is different from one producer to the other. The break through time depends amongst other things on the material, the thickness and the type of glove and therefore has to be measured for each case. Gloves must be inspected prior to use. Replace when worn. Impervious gloves Nitrile rubber

Eye protection: Wear protective gloves/ protective clothing/ eye protection/ face protection. Tightly fitting safety goggles Wear face-shield and protective suit for abnormal processing problems.

Skin and body protection: Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place. Impervious clothing If splashes are likely to occur, wear: Complete suit protecting against chemicals

Hygiene measures: Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the product. Ensure that eyewash stations and safety showers are close to the workstation location. When using do not eat, drink or smoke. Take off contaminated clothing and wash before reuse.

Protective measures

Environmental exposure controls

General advice: The product should not be allowed to enter drains, water courses or the soil. If the product contaminates rivers and lakes or drains inform respective authorities. Prevent further leakage or spillage if safe to do so.

9. Physical and chemical properties

9.1 Information on basic physical and chemical properties

   Appearance: liquid
**TANALITH E 8000**

Colour: blue

Odour: ammoniacal

Flash point: Note: does not flash

pH: 10.91 at 20 °C

Density: 1.184 g/cm³ at 20 °C

Water solubility: Note: completely soluble

Viscosity, dynamic: 40 mPas at 5 °C

**9.2 Other information**

Oxidising potential: Note: Not relevant

---

**10. Stability and reactivity**

**10.1 Reactivity**

None known.

**10.2 Chemical stability**

Stable under recommended storage conditions.

**10.3 Possibility of hazardous reactions**

Hazardous reactions: Note: Stable under recommended storage conditions.

**10.4 Conditions to avoid**

Conditions to avoid: None known.

**10.5 Incompatible materials**

Materials to avoid: Oxidizing agents

**10.6 Hazardous decomposition products**

Thermal decomposition: Note: None known.

---

**11. Toxicological information**

**11.1 Information on toxicological effects**

**Acute toxicity**

Acute oral toxicity: Remarks: Harmful if swallowed.

TANALITH E 8000
Acute inhalation toxicity
TANALITH E 8000
Remarks: Harmful by inhalation.

Acute dermal toxicity
TANALITH E 8000
Remarks: Harmful in contact with skin.

Skin corrosion/irritation
Skin irritation
TANALITH E 8000
Remarks: Causes skin burns.

Serious eye damage/eye irritation
Eye irritation
TANALITH E 8000
Remarks: Causes eye burns.

Respiratory or skin sensitization
Sensitisation
TANALITH E 8000
Remarks: Not believed to be sensitising to skin.

Further information
TANALITH E 8000
Remarks: no data available

12. Ecological information

12.1 Toxicity

Ecotoxicology Assessment
Chronic aquatic toxicity
TANALITH E 8000
Remarks: Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

12.2 Persistence and degradability

Biodegradability
TANALITH E 8000
Remarks: no data available

12.3 Bioaccumulative potential

Bioaccumulation
TANALITH E 8000
Remarks: no data available
12.4 Mobility in soil

Mobility
TANALITH E 8000 : Remarks: no data available

12.5 Results of PBT and vPvB assessment

TANALITH E 8000 : This mixture contains no substance considered to be persistent, bioaccumulating nor toxic (PBT). This mixture contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

12.6 Other adverse effects

Additional ecological information
TANALITH E 8000 : Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

13. Disposal considerations

13.1 Waste treatment methods

Product : The product should not be allowed to enter drains, water courses or the soil. Dispose of as hazardous waste in compliance with local and national regulations. According to the European Waste Catalogue, Waste Codes are not product specific, but application specific.

Contaminated packaging : Dispose of as unused product. Do not re-use empty containers.

14. Transport information

Dangerous for Transport
ADR
14.1 UN number : 1760
14.2 Proper shipping name : CORROSIVE LIQUID, N.O.S.
(2-Aminoethanol, Copper(II) carbonate--copper(II) hydroxide (1:1))
14.3 Transport hazard class : 8
14.4 Packing group : II
Classification Code : C9
Hazard identification No : 80
Labels : 8
14.5 Environmentally hazardous : yes

IATA_C
14.1 UN number : 1760

(2-Aminoethanol, Copper(II) carbonate--copper(II) hydroxide (1:1))
14.3 Transport hazard class : 8
14.4 Packing group : II
Labels : 8
14.5 Environmentally hazardous : yes

IMDG
14.1 UN number : 1760
14.2 Proper shipping name : CORROSIVE LIQUID, N.O.S.
(2-Aminoethanol, Copper(II) carbonate--copper(II) hydroxide (1:1))
14.3 Transport hazard class : 8
14.4 Packing group : II
Labels : 8
EmS Number 1 : F-A
EmS Number 2 : S-B
14.5 Marine pollutant : yes
Copper(II) carbonate--copper(II) hydroxide (1:1)

14.6 Special precautions for user
Other information : Refer to protective measures listed in sections 7 and 8.

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Remarks : Not relevant

15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
Major Accident Hazard : 96/82/EC
Update: 2003
Legislation

Dangerous for the environment
9a
Quantity 1: 100 t
Quantity 2: 200 t

Water contaminating class

WGK 3 highly water endangering

Germany)

15.2 Chemical Safety Assessment

not applicable

16. Other information

Full text of R-phrases referred to under sections 2 and 3

R20/21/22 Harmful by inhalation, in contact with skin and if swallowed.
R34 Causes burns.
R50/53 Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

Full text of H-Statements referred to under sections 2 and 3.

H301 Toxic if swallowed.
H302 Harmful if swallowed.
H312 Harmful in contact with skin.
H314 Causes severe skin burns and eye damage.
H315 Causes skin irritation.
H317 May cause an allergic skin reaction.
H318 Causes serious eye damage.
H319 Causes serious eye irritation.
H32 Harmful if inhaled.
H361d Suspected of damaging the unborn child.
H400 Very toxic to aquatic life.
H410 Very toxic to aquatic life with long lasting effects.
H411 Toxic to aquatic life with long lasting effects.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
