SOUTH NORTHAMPTONSHIRE LOCAL PLAN

Your chance to make a difference

BRACKLEY – THE ISSUES
The South Northamptonshire Local Plan is a framework that will guide decisions made by the local planning authority on a range of issues that affect everyone who lives and works in the district. It will include proposals for housing and other forms of development, including employment and contain policies aimed at improving town centres and the rural economy and other important services and facilities, as well as those aimed at enhancing and protecting our heritage and local environment.

As our urban and rural communities grow and develop, change is inevitable. The Local Plan will help us to manage that change in a positive way, for the benefit of everyone. It will enable us to develop sustainable village communities, build prosperous towns and support a strong and flexible rural economy. At its heart is the desire to create a stronger future for the district, while protecting what we have at the present and preserving what’s special about the past.

The Plan must adhere to criteria contained in a number of national and local planning policies, including the National Planning Policy Framework (NPPF) and the West Northamptonshire Joint Core Strategy (JCS). The existing Local Plan, which must be reviewed and kept up to date, was adopted in 1997. Shaping the future of the district up to 2029, South Northamptonshire Council (SNC) is working to adopt the new Plan in 2015.

Cllr Mary Clarke
Leader of South Northamptonshire Council

Cllr Rebecca Breese
Portfolio Holder for Planning and Environment, South Northamptonshire Council
HAVE YOUR SAY
To ensure that the Plan accurately reflects the aspirations and wishes of all, SNC is carrying out a comprehensive consultation with the local community. This is a unique opportunity to have your say about the things that matter most to you. You can influence the outcome of the Plan by responding to the issues set out in the consultation documents and by letting us know if there are any other issues that have not been specifically identified but that you consider to be important. By taking part, you can help to improve the quality of life where you live and work.

KEY STEPS

PHASE 1 – THE ISSUES, WINTER 2013/14
Consultation to establish the scope of the Plan, including the issues to be addressed, the criteria and methodology that should be used in future planning decisions.

PHASE 2 – THE OPTIONS, SUMMER/AUTUMN 2014
SNC will put forward options for how to deal with the issues raised. Based on responses from the community, SNC will set out the preferred options in a draft Plan.

PHASE 3 – EXAMINATION, WINTER 2014/2015
The preferred options will be submitted in a final Plan to the Secretary of State.

PHASE 4 – ADOPTED, SUMMER/AUTUMN 2015
The Local Plan will formally be adopted.

Everyone has an opportunity to influence the outcome of the Local Plan.
BRACKLEY

Brackley is a historic market town with an attractive but under-utilised town centre. It has undergone significant housing expansion over recent years and now has a population of around 14,000. Employment opportunities in the town include the motorsport industry. However, many residents travel to larger local towns such as Banbury, Oxford and Milton Keynes for work, shopping and leisure. Brackley plays an important role in providing services and facilities to local villages.

The Joint Core Strategy (JCS) includes specific visions and policies relating to Brackley. It recognises that the town is an important service centre that should be supported to ensure it becomes more self-sufficient and remains a focus for surrounding villages. The JCS proposes major housing and employment developments to the north and the east of the town. The Local Plan cannot re-visit these, or any other policies in the JCS. Instead, building on the Brackley Masterplan, it will seek to apply locally distinctive policies, including...
improvements to the town centre and smaller, non-strategic housing and employment allocations.

**Brackley Masterplan**

The Local Plan will build on the Brackley Masterplan, which was adopted by South Northants Council on 26 January 2011. This provides a framework for the future development of the town, with a vision of how the town could become attractive to people as a place in which they would want to live, work and visit.

It sets out proposals for how Brackley will be renewed and regenerated over the next 15 years through sustainable and limited growth in housing, employment and by providing modern services and amenities. It particularly focuses on proposals for improving the town centre, including plans for extensive new leisure, education, social and community facilities.

Key to the reinvigoration of the town is the ability to attract investment in good quality housing, employment and infrastructure development in the right locations.

The Brackley Masterplan also considers the impact of the preferred route for the High Speed Rail Link (HS2) announced by the Government, which if built, will pass to the north-east of the town.

The Masterplan will help SNC to secure high quality development, related infrastructure and secure gains for the community when in discussions with developers and determining planning applications.
The Brackley Masterplan was adopted by South Northants Council on 26th January 2011. Download the plan at: http://apps.southnorthants.gov.uk/website/brackleymasterplan.htm
THE ISSUES

- In addition to agreed housing and employment developments, what other opportunities for housing, employment, or retail exist and what form should they take?
- How can public transport links be improved between Brackley and surrounding villages?
- What improvements should be made to the town’s leisure, tourism and shopping facilities?
- Should a mix of development be allowed in the town centre, such as residential, leisure, commercial, tourism and community uses?
- Would additional sports and recreation outdoor spaces benefit the community?
- Is more provision needed for allotments and cemetery space?
- Could more be done to welcome visitors to the town with signage, art, or other features on main routes?
- Do walking, cycling and car routes into and within the town, or parking need to be increased or improved?

WHAT NEXT?

The consultation process for The Issues stage is taking place from 28 October 2013 to 24 January 2014.

All responses to the consultation documents must be returned by 24 January at the latest. Responses cannot be accepted after this date.

- Collect a copy of the documents from SNC’s offices at Springfields, Towcester, Northamptonshire NN12 6AE, or telephone 01327 322267.
- Copies are also available from your town council clerk.
MAKE YOUR VOICE HEARD

SNC will be carrying out a number of consultations at key stages during the preparation of the Local Plan. For further information, please contact Andy D’Arcy, or a member of his team at SNC. You can also inform Brackley Town Council of your views as it will be submitting its own response to the Local Plan to SNC.

Send all comments in writing to:
Andy D’Arcy,
